INVOICES:

E. L. Harvey	\$25,214.26
Nashoba Board of Health	5,307.21

5 HUNTER LANE - MIKE BENSON AND TRICIA MACKENZIE

Mr. Benson & Ms. MacKenzie met with the board to discuss possibly adding a 24'x28' master suite onto the end of the house. Their main concern is whether or not the septic will be able to handle a 4 bedroom. The septic that is there is a 1,000 gallon tank. A 1,500 gallon system is required for 4 bedrooms.

The Board reviewed the plans and explained that a Title 5 Inspection must be done to make sure the system is in good working order. Depending on the results of the Title 5 inspection, the homeowner will decide what they want to do. There was a short discussion of a two compartment tank.

Mr. Benson and Ms. MacKenzie will keep Ira informed of what they decide to do.

LORDEN OIL – 8 BAYWOODS DRIVE

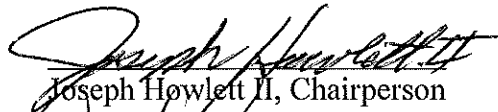

Request to install a 500 gallon underground propane tank was denied by the Board. Once the Board receives a plan showing where the septic system and the electronics are located the board will review it.

NOISE COMPLAINT – CLOSETS BY DESIGN.

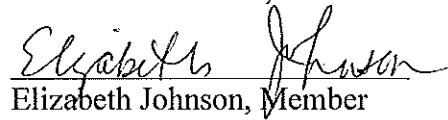

Ira Grossman and the Board continue to monitor the noise complaint.

Correspondence was reviewed.

J asked for a motion to close the meeting. Motion made and seconded. All members voted in favor.

Joseph Howlett II, Chairperson

Donald E. Farrar Jr., Member

Elizabeth Johnson, Member
